Education

B.Tech in Computer Science & Engineering

Sep 2022 - Jun 2026 (Expected)

H.R.I.T. Institute, Ghaziabad | Affiliated by A.K.T.U. Lucknow

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Systems, Web Development, Computer Networks

Certification: MERN Stack Developer (Coder Army)

Technical Skills

Languages
JavaScript, TypeScript, C/C++

Front-End
React, Redux, Tailwind, Vite, Parcel

Back-End
Node.js, Express, REST APIs, JWT, WebSocket

Databases
MongoDB, Mongoose, Redis, PostgreSQL

Tools
Git, AWS, Docker, Postman, Netlify

Projects

SynapseCode - AI Coding Platform

- Developed coding platform with AI assistant and algorithm visualizer
- Built with MERN stack, JWT auth, and real-time features
- Utilized MongoDB with Mongoose and Redis for caching

AuraBuild - AI Website Builder

- Created web app leveraging LLMs for generating website layouts
- Designed RESTful APIs to handle AI logic and user requests
- Deployed on Netlify and AWS for scalability

Additional Information

- **Availability:** Immediately available for internships and full-time roles
- **Interests:** Full-Stack Development, AI Integration, Real-Time Applications
